

PATCH LOCK RANGE

Double Cylinder (Keyed Random) Item No: **DCKR**

SPECIFICATIONS

Construction: Stainless Steel.

Description: This is a EuroStyle double cylinder designed for use with the PF100T, PF100P and PF200 patch locks, keyed to random so each cylinder has its own individual key, providing the locking mechanism for the patch lock.

Use: Commercial doors, shop fronts.

Includes: Double Cylinders.
