

SHOWER SYSTEMS RANGE

Concealed Sliding Door Hardware Kit Item No: **SH808**

SPECIFICATIONS

Description: The Opus Hardware ECLIPSE System is a concealed modular sliding door kit for shower enclosures, designed to work with standard 10mm glass. It requires drilling only in the sliding door, while fixed panels remain un-drilled, and can be configured for alcove or corner installations..

Components: The kit includes a concealed roller system, stop blocks, a door guide, and a 2500mm sliding track extrusion, along with the necessary fittings. The handle is not included and must be supplied separately.

Material: Aluminum.

Glass Size: 10mm Glass

GLASS CUT-OUT DETAILS

- Wall channels should finish 10mm below top of fixed glass panels, this is to allow for top track.
- Components must be slid into top track before top track installation.
- Note to allow for floor tolerance under door for floor guide.
- 45mm taller than the fixed panel.
